

300 unit solar panel price Solomon Islands

How much will a solar PV project cost in Solomon Islands?

Component 3: US\$ 2.5million to add grid-connected solar power to contribute to the overall share of renewable energy in Solomon Islands energy mix. Solomon Power has identified three possible sites for grid-connected solar PV, not all of which are likely to be funded under the Project. These include:

How many solar homes are there in the Solomon Islands?

"Solomon Islands currently has one of the lowest levels of access to electricity in the region, with over 85% of the population of Solomon Islands still without access to electricity and for this project alone, we received over 6,000 applications to obtain only 2,000 solar home systems," said Mr Aimaea.

How long do solar panels last in Solomon Islands?

The majority of solar energy systems installed in Solomon Islands last less than 2 years due to bad system design and poor user training. Superfly's systems are designed to last a minimum of 5 years (for basic systems) and 10 years for premium systems.
