

Aiko solar company Seychelles

Who is Aiko solar?

AIKO is a world-leading new energy technology company that focuses on R&D and manufacturing of PV core products and integrated solutions for power generation, storage, usage, providing customers with solar cells, ABC (All Back Contact) modules and scenario-based solutions. Multi-application solutions to fulfill various solar energy demands.

Where is Aiko solar located?

Relying on independent creation and innovation, Aiko solar gradually masters the world-leading core technology in the PV industry and has obtained lots of national patents. Guangdong Aiko Solar Energy Technology Co., Ltd. is located at No. 69 Area C Sanshui Industrial Park, Foshan City Guangdong Province.

What are Aiko solar panels & how do they work?

AIKO solar panels feature All Back Contact (ABC) cells hence the modules have no visible lines (bus bars) on the front. Therefore the entire surface harvests sunlight resulting in a nearly 24% efficiency for each module.

Why should you choose Aiko solar panels?

AIKO solar panels feature ABC technology, prioritize efficiency (23%+), reliability (30-year performance warranty), and have a neat bezel-less finish which makes them perfect for residential and commercial applications. AIKO solar panels feature All Back Contact (ABC) cells hence the modules have no visible lines (bus bars) on the front.

Where are Aiko solar modules installed?

AIKO's 24.6% efficiency solar modules installed on a project in Tianjin, China. The solar installation in Shandong, China, showcasing AIKO's modules with 24.6% efficiency. Installation of AIKO's 24.6% efficiency modules at one of project sites in Shandong, China.

How efficient are Aiko solar modules?

The solar installation in Shandong, China, showcasing AIKO's modules with 24.6% efficiency. Installation of AIKO's 24.6% efficiency modules at one of project sites in Shandong, China. AIKO Solar has officially started delivering its latest Comet 2U 665W modules, boasting an impressive efficiency of 24.6%.
