Happy Monday! As the week kicks off, our HSE, Stores, and On-site teams wanted to pop in and say, "Hi! ?& quot; from Kinyerezi 1 Extension Power Plant project in... | 16 comments on LinkedIn

The country hopes to derive 29% of its energy from geothermal sources by 2030 (from 15% as of 2015). This is essential to providing low-cost, and especially stable energy supply because hydro-electric plants have been subject to droughts.

If meticulous organization and safeguarding information is your strength, we need you as our Senior Document Controller. Just like a well-organized filing cabinet that securely holds essential documents, your role will be pivotal in managing, structuring, and securing all project documents.

One of CSI Energy Group"s flagship projects is the Kinyerezi 1 Extension in Tanzania. The natural gas-fired power plant has significantly reduced Tanzania"s reliance on hydropower, contributing to improved energy security and saving an estimated \$500 million in fuel costs, the firm said.

The CSI Energy Group () is a diversified African centric network of companies enabling a Just Energy Transition across Africa, finding the right balance between energy security, affordability, sustainability and inclusion. The Group operates across 12 countries and has successfully completed more than 200 projects in Africa.
