

Albania scale microgrid

What is scale microgrids?

Scale Microgrids designs, builds, finances, and operates cutting edge distributed energy assets that offer cheaper, cleaner, and more resilient power.

What is scale microgrids doing with Truist bank?

[Your Privacy Choices](#) [Ad Terms](#) [Feedback](#) NEW YORK, December 12, 2024--Scale Microgrids ("Scale") has closed a major tax equity transaction with Truist Bank to support the construction of new distributed energy assets across the U.S. Under this partnership, Truist will provide a tax equity investment of up to \$150 million.

Does Truist support scale microgrids?

"Truist is proud to support Scale Microgrids in developing a portfolio of renewable energy projects that will provide clean power to end users such as universities, hospitals, businesses, and communities across the country," said Chris Nygren, Head of Tax Equity for Truist Bank.

What if a utility outage is a microgrid?

In the event of a utility outage, our microgrids can operate independently (or "island") from the grid and ensure critical operations stay online. Scale manages everything from microgrid design and construction to ongoing operations and maintenance, making a complex process headache-free.

Why should you use microgrids?

Go beyond the grid with cheaper, cleaner, and more resilient on-site energy from the industry leader in microgrids. Our microgrids deliver results for your organization, with optimized on-site energy resources that provide cost savings, lower emissions, and enhanced resilience.

Could solar power reduce Albania's reliance on energy imports?

Albanian researchers say that solar could be key to reducing Albania's reliance on energy imports, but the nation will need to invest in grid infrastructure, streamline laws, and enhance access to funding to support deployment.

Deepa joins Scale with close to two decades of experience working in operations in the renewable space. Before joining Scale, Deepa was Senior Vice President of Operations at Primergy Solar and worked to develop Gemini, a 690 MW ac solar + 380 MW battery energy storage project, which is one of the most sophisticated clean energy projects ever developed given its scale ...
