

Albania skyland solar

Where is a 2 MW photovoltaic plant being built in Albania?

The third application is for a 2 MW photovoltaic plant. Erni Solar is the developer and it intends to build the facility in the village of Bitinck near Bilisht in Korça district in Albania's southeast. Currently, there is only 23 MW in operational solar power capacity in the entire country.

Where are solar power plants located in Albania?

Both sites are in Fier county. Albania has more than enough solar power projects in the pipeline to meet the 220.4 MW in the combined capacity of wind power and photovoltaics that transmission system operator OST expects to connect by 2023.

Could solar power reduce Albania's reliance on energy imports?

Albanian researchers say that solar could be key to reducing Albania's reliance on energy imports, but the nation will need to invest in grid infrastructure, streamline laws, and enhance access to funding to support deployment.

Why should Albania invest in solar power?

Matteo Colangeli, EBRD Head of Albania, commented: "The tender delivered another landmark for the development of solar power in Albania and will attract more high-quality foreign direct investment to the country. We are proud to be supporting Albania on the path to a sustainable and diversified energy sector."

Will Albania add 300MW to the energy grid?

Albania has launched its fifth round of auction for new PV projects, and is aiming to add 300MW of new capacity to the country's energy grid.

Who won a 100 MW solar plant in Albania?

The French renewables company Voltalia has won the contract for the construction and operation of a 100 MW solar plant in Albania following its successful bid in a tender run by the Albanian Ministry of Infrastructure and Energy. The European Bank for Reconstruction and Development (EBRD) supported the tender by providing technical assistance.
