

Who is Aleo Solar?

Aleo Solar has a long history in the competitive premium solar panel market operating for over 20 years. The company is one of the few companies to solely manufacture solar panels in Europe, while the most of their competitors have shifted solar panel production to countries across Asia.

Where are aleo solar panels made?

Since 2014 the emerging company (now named "Aleo Solar GmbH") has kept their focus on producing high quality solar panels with their sole manufacturing plant remaining in Prenzlau Germany. The capacity of this plant of just under 500MW per year, means they are a small-scale producer compared to largest Chinese solar brands.

What types of solar panels does Aleo Solar offer?

Aleo Solar has three main series of solar panels: HE-TEC, Elegante and Roof integration which have a variety of different options to suit residential, commercial and utility-scale projects. For Australian market, Aleo Solar provide P23, X61, X63 and X83 premium series and Sol S83 series for BIPV projects.

Are aleo solar panels reliable?

Aleo Solar's panels have an outstanding performance in most of the PV module tests including climate chamber tests, electroluminescence tests and the extreme weather resistance tests. Their performance is reported to be almost twice the minimum IEC standards for hail testing, which makes their panels more reliable and durable.

Does Aleo Solar offer a warranty?

Aleo Solar offers 25 years product warranty which is on par with the best offers in the market. The performance warranty guarantees a certain level of output for the lifetime of the panel - typically guaranteeing 80-82% of the nameplate output after 25 years.

What is Aleo power network?

Addressing such issues, the Aleo Power Network is a German quality standard installation program ensuring the quality solar modules one purchases has a quality installation to match. Latest technology.
