

# Andorra island green power

How will Andorra become a green country?

Andorra will go from producing energy using coal, to generating clean energy with an installed capacity of 1,843.6 MW as a result of 7 hybridised renewable projects, 2 storage projects with batteries, a green hydrogen project and a synchronous compensator.

What are the 10 energy communities in Andorra?

This is another step towards the digitalisation of the area surrounding Andorra together with the development of 10 energy communities. These are Andorra, H&#237;jar, Albalate del Arzobispo, Puebla de H&#237;jar, Jatiel, Castelnou, Ejulve, Molinos, Alac&#243;n and Alcorisa.

What is the Endesa plan for Andorra?

For Endesa's General Manager for Sustainability, Mar&#237;a Malaxechevarr&#237;a, this Endesa plan for Andorra &quot;is not just theory, it is a reality with which more than 30 entities in the area have collaborated with innovative and unique projects, which aim to generate employment by helping to diversify the economy in the surrounding area.

The proposed farm would have brought a 50% biodiversity net gain. Image: West Burton Solar Project. Solar PV developer Island Green Power has seen a development consent order (DCO) decision delayed by the UK ...
