

## Anguilla electro power solution

Does Anguilla have energy consumption by sector?

Energy consumption by sector is unknown. The draft CCP facilitates the transition of Anguilla to an energy independent, climate resilient, energy-efficient, low-carbon economy.

How much electricity does anglec generate?

ANGLEC has an installed generation capacity of 33 megawatts(MW),<sup>4</sup> a total annual consumption of 88.56 gigawatt-hours (GWh), peak demand of 13.99 MW, and 9.78% transmission and distribution losses, which translates to 8.57 GWh.<sup>6</sup> In the past, ANGLEC generated electricity primarily from less-efficient high-speed diesel units.

How many megawatts does anglec produce?

In 2007, Anglec placed an order for an additional generating set capable of producing 5.4 megawatts of electricity, based on expected load growth. The unit arrived in Anguilla on 1st February 2009 and installation is expected to be completed by June. The addition of this generating set will increase Anglec's capacity to more than 28 megawatts.
