Why should you choose Energi solutions @ Africa?

Our engineering expertise and capacity is the cornerstone for execution of major projects from feasibility to commissioning across the African continent. Energi Solutions @ Africa supports its customers operations through equipment service life by training, audits, optimisation, maintenance, and spare parts services.

Why did Energa Argentina need more power sources?

The government-owned electricity company, Enarsa Argentina S.A. (ENARSA), needed additional power generation sources distributed throughout the country to meet high energy demand during the summer and winter months.

Does Argentina have a green energy policy?

This approach is guided by the Hamburg Principles adopted by the G20 in 2017 and builds on the substantial experience across the institution. Despite large renewable energy resources, Argentina gets just 2 percent of its power from green energy.

Is reducing air pollution a good idea for Argentina?

This is about 4 percent of Argentina's NDC commitment for 2030. Reduced air pollution also promises health benefits for the population. The energy is not only cleaner but also cheaper: the latest auction resulted in winning bids that are 41 percent below 2015 prices.
