The Lunar System marks the first step toward endless clean energy for everyone. Our vision is a future where every home makes, stores, and controls its own solar energy. Once homes have all the energy they can use -- and then some -- ...

Eaton AbleEdge smart breakers will add intelligent load management to Lunar Energy's solar battery system. Compatibility with Lunar Energy's mobile application will make it easier and faster for customers to integrate and manage distributed energy resources at home. Read. Watch video.

That stake comes as part of Lunar Energy's acquisition of Moixa, a U.K.-based software provider that's managing a fleet of 35,000 residential battery systems in Japan and more in the U.K. Lunar Energy has hired about 250 employees and built a 35,000-square-foot manufacturing facility in Mountain View, Girotra said in a Wednesday interview.

The system basically is a cross between Enphase and SolarEdge as a DC coupled battery. Interesting tho it has a 12.5 year warranty but no mention of throughput. Also no specs on composition or max output. Tesla is a 7.5 kw max and 5 kw nominal. I'm curious if this is a LFP battery since they tout it can be installed anywhere.

Lunar Energy | 13,949 followers on LinkedIn. Brilliantly-designed products for endless clean energy. | Lunar exists to power homes around the world with endless clean energy. We believe that, provided with the right tools, a clean energy future is within reach. And to give people those tools, we're building an ecosystem of all-electric products starting with a next-generation home ...
