Will Eagle LNG invest in Aruba?

Eagle LNG president Greenberg indicated that they have been seeking investment opportunities for a while in the Caribbean region and the signing of the exclusivity agreement means that they can finally start investing in Aruba. The processing of the necessary equipment for the terminal and the permanent process will start immediately.

What is stored-up energy and how does it benefit Aruba?

Stored-up energy grants the flexibility necessary to sustain Aruba in its energy independence. The island has enhanced its storage abilities by utilizing BYD's grid-scale technology, which means that there doesn't have to be a daily breeze in order for Aruba to have ample energy to sustain itself.

What are the benefits of using gas in Aruba?

Gas has many benefits, it will stabilize the production costs for water and electricity resulting in reduced tariffs, it is better for the environment since it is cleaner compared to heavy fuel oil. It also brings economic development as the company will be established in Aruba and will create new jobs considering their plans for gas export.

Will US investors have a positive impact on Aruba?

US Consul General, Greenberg stated that he was pleased with the positive impact US investors will have on Aruba. One thing that the pandemic taught everyone is that no country can depend only on a single industry. This new development will create economic diversification.
