

What is solar energy in Ghana?

Solar energy refers to heat and radiant light from the sun that can be harnessed with technologies such as solar power (used to generate electricity) and solar thermal energy (used for applications such as water heating). The solar energy market in Ghana is segmented by development.

Who are the major solar energy players in Ghana?

The solar energy market in Ghana is fragmented. Some of the major players include Trina Solar Ltd, Jinko Solar Holdings Co. Ltd, SunPower Innovations, Translight Solar, and Redavia Solar Power (in no particular order), among others.

What are the barriers to entry in the Ghana solar PV market?

However, the main barrier to entry in the Ghana solar PV market is the freeze on the issuance of electricity production licences and, when the ban is over, the implications of the new local content and participation laws. Article compiled by: Araba Attua-Afari, Senior Associate at Ghanaian member firm Bentsi-Enchill, Letsa & Ankomah

How many net-metered solar PV systems can be installed in Ghana?

Under the Ghana Mini Grid and Solar Photovoltaic Net Metering Project, 12,000 net-metered solar PV systems will be installed for public institutions, small and medium-sized businesses, and selected households. The grant will be used to install capacities of up to 67.5 MW.

Can solar power improve the reliability of power supply in Ghana?

Ghana's abundant solar power potential has been identified as the security needed to improve the reliability of power supply in a power sector where thermal plants have increased importance during dry spells, and hydro plants become overburdened when thermal plants experience availability challenges.

What is Ghana energy development & Access Project (GEDAP)?

The Ghana Energy Development and Access Project (GEDAP) is a multi-donor-funded project that is part of the SE4ALL Action Plan. Its aim is to increase the efficiency of Ghana's distribution system and reduce greenhouse gas emissions. IDA, the African Development Bank (AfDB), and Africa Catalytic Growth Fund (ACGF) are the donors to this project.

Yesterday, 16 December 2021, the Vice Chancellor of Takoradi Technical University Rev. Prof. John Frank Eshun officially inaugurated the new Solar Training Centre, a facility committed to increasing the employment rate of young university students in the solar industry by shaping their skills and knowledge early on in a way the industry needs.
