Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

Is solar a good option in the Bahamas?

On a kilowatt-hour (kWh) by kilowatt-hour basis, solar's your best, but you need to add battery energy storage capacity in order to reach higher levels of penetration," he noted. "Nassau's [the Bahamas' largest city] is a pretty big grid, and it can take a fair bit of solar without storage," Burgess continued.

Does Bahama have a solar power project?

The Bahamian government owns and manages property rooftops, parking lots and green spaces, on which solar power projects could be developed. Several projects that capitalize on that solar power potential are underway, Jones Bahamas points out.

What services does smart sun solar offer?

"Smart Sun Solar offers turnkey services that help you experience the value of solar energy. Our all inclusive services encompass consultation, design, commissioning, maintenance, and monitoring for a lifetime. We are the only organization that provides a Solar Analysis Report before the beginning of the installation process.

How is the Bahamas reducing its energy monopoly?

The Bahamas has been taking steps to end the state-owned utility's energy monopoly and reduce the energy sector's carbon and environmental footprints in line with national and international greenhouse gas (GHG) emissions and climate change goals. Government leaders have earmarked \$170 million for renewable energy financing in the 2019-2020 budget.

Is the Bahamas a difficult place to generate electricity?

BPL Chairman Donovan Moxey was quoted in a Tribune Business news report. The Bahamas is a very difficult place to generate electricity, distribute it and sell it, even as compared to other Caribbean islands, Chris Burgess, Islands Energy Program projects director, told Solar Magazine.

DNA of The Bahamas; one might say that this is a direct consequence of the country's sovereignty. Independent since 1973, The Bahamas has been able to chart its own course in the development of legislation and policies which aid the development of the investment funds sector. Innovation is carefully planned and based on an inherent
