Who is Ballard European Competence Center?

Ballard European Competence Center in Hobro, Denmark. Here, we are active in fuel cell system development, production, applications engineering, and business development. In addition, we conduct after-sales service support for all Ballard products in Europe. Currently, these products include:

Why is Ballard a good fuel cell company?

On the corporate side, public pressure for companies to become more environmentally friendly is also a strong driver for Ballard's fuel cell systems. Combined, these trends have led us to increase our manufacturing capacity three-fold and our headcount twenty-fold in Europe in the last five years.

What is Ballard Europe doing to prepare for the next generation?

Finally, in preparation for the next generation of fuel cell users, Ballard Europe has partnered with Van Hool, Aberdeen City Council, Mercantec and CEMTEC/Hydrogen Valley and developed a Fuel Cell and Hydrogen Training Programme for mechanics and bus technicians.

Who is Ballard Europe?

We are one of Europe's leading fuel cell companies, with 50 employees in Denmark mainly focused on R&D, engineering, manufacturing and service, plus a commercial presence in Germany, the UK, and France. Our plans are for continued growth of this essential footprint in Europe. Ballard Europe prides itself on having a complete value chain.

Where is Ballard Europe located?

Ballard Europe prides itself on having a complete value chain. Our European Competence Center is located in Hobro, Denmark. Ballard European Competence Center in Hobro, Denmark. Here, we are active in fuel cell system development, production, applications engineering, and business development.

How does Ballard Power systems use my personal information?

Ballard Power Systems is committed to protecting and respecting your privacy, and we'll only use your personal information to administer your account and to provide the products and services you requested from us.

Vertiv (NYSE: VRT), a global provider of critical digital infrastructure and continuity solutions, and PEM fuel cell market leader, Ballard Power Systems (NASDAQ: BLD; TSX: BLD), have entered into a strategic technology partnership with a focus on backup power applications for data centres and critical infrastructures, scalable from 200kW to multiple MWs.

Ballard has established production capacity in Denmark for 40 MW of fuel cell systems per year. Ballard wants to further scale its fuel cell module production and sub assembly capacity in Europe to gigawatt scale.
