How much energy does Barbados generate?

This page is part of Global Energy Monitor's Latin America Energy Portal. As of 2020, Barbados derived 93% of its electricity from fossil fuels, with the remaining 7% generated by solar energy.

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

Who is responsible for energy generation in Barbados?

MEWR (Ministry of Energy and Water Resources) is responsible for energy generation in Barbados. The Ministry of Environment and National Beautification oversees environmental protection through permitting. The Project Monitoring & Coordination Team ensures energy projects align with the BNEP 2019-2030.
