Excellent safe charging box. Nov 27, 2021. Excellent box, I use it for 4x 3S 4200mAh Zippy LiFePo4 batteries. Awesome on a Hota F6 charger, just drive 2 sets of 2 batteries, put them all in the box and charge overnight. I mounted the Hota F6 with the included bracket for an all in 1 charging station. Only two downsides I could find find:

Install the connecting wires from the charger to the battery via the insulated fire collar, clip the easy to use

# Bat safe lipo battery charging safe box Fiji

The simple solution to safely charge any battery containing lithium. If you are into drones, FPV or RC, or just using lipo batteries in other applications, be aware that they might catch on fire whilst charging (LIPO and LI-ION). The BAT-SAFE is ...

This is the Bat-Safe, the simple solution to safe charging of LiPo batteries containing lithium. The BAT-SAFE is an insulated double wall steel box that contains the fire and intense heat in case of a runaway battery. The smoke and soot is filtered through a flame arrestor. BAT-SAFE is lightweight, easy to use and inexpensive.

Instead of completely sealing the container like many homemade charging boxes, which makes the fire more intense and pressurized, the Bat-Safe safely vents the heat and smoke in a controlled manner. This XL version of the popular Bat-Safe and will easily handle four large 6S 6000mAh packs, or a small collection of standard FPV quad batteries.

**\*\* NOTE - This product helps but does not replace proper safe battery charging techniques.
