The Norfolk Island Pine is a tropical evergreen native to Norfolk Island, a tiny, picturesque island off the coast of Australia. Although a lively addition to your home all year round--the Norfolk Island Pine shines as a live holiday tree during the winter season.

A common misconception about solar panel systems is that they automatically continue to produce electricity if the grid goes down, so long as the sun is shining. All inverters are required to be able to be "anti-island." In other words, solar inverters are explicitly designed not to allow your solar panels to continue to push electricity into your home in the event of an outage.

Norfolk Island Regional Council published tariffs in July 2023. All the energy tariffs apply equally to people without solar, with solar, and those with solar and battery systems. Whether it is the 82c/kWh tariff or the 5c/kWh tariff that applies to a particular half-hour, ALL energy flow at ...
