

What is cobalt mining in the Democratic Republic of the Congo?

Cobalt mining in the Democratic Republic of the Congo is the subject of the report "Cobalt Mining in the Democratic Republic of the Congo: Addressing Root Causes of Human Rights Abuses" (PDF). This report builds on an earlier case study of the integration of ASM (Artisanal Small-Scale Mining) at the Mutoshi mine in the DRC, a pilot project aimed at improving working conditions and eliminating child labor.

How much electricity does the DR Congo import?

The DR Congo imported 78 million kWh of electricity in 2007. The DR Congo is also an exporter of electric power. In 2003, electric power exports came to 1.3 TWh, with power transmitted to the Republic of Congo and its capital, Brazzaville, as well as to Zambia and South Africa.

How much energy does DR Congo have?

The national hydroelectric potential is estimated at about 100,000 MW, corresponding to 13% of the global potential or 66% of Central Africa's potential. In 2014, the country's energy supply represented only 2% of the hydroelectric potential. Consequently, the DR Congo has been exposed to a chronic energy deficit. 2.1.

Is DR Congo facing a serious energy crisis?

The DR Congo has faced a severe energy crisis despite major energy potential. In 2014, it liberalized its energy sector. The paper examines the Inga 3 dam project, which is confronted with political, geostrategic, and financial challenges.

How does green technology affect the energy sector in DR Congo?

The energy sector in the DR Congo under the pressure of green technology development In 2016, the energy deficit in the copper-cobalt belt of the ex-Katanga was estimated at 900 MW. In addition to the electricity gap, an insufficient reliable transport system has affected the development of industrial mining projects.

How much hydropower does DR Congo have?

Introduction The DR Congo's hydropower resources are estimated at about 100,000 MW, of which 44,000 MW are concentrated at the Inga site (Kongo Central province). The Grand Inga project has regional and continental dimensions. It is one of the key priorities of the African Union (AU) agenda 2063.

Congo Energy devient le représentant exclusif de la marque PRAMAC pour la République démocratique du Congo.. PRAMAC propose une large gamme de groupes électrogènes jusqu'à 4000 kVA capables de satisfaire de nombreuses exigences, quel que soit le domaine d'activité: industrie, santé, data centers, domestique. Disponibles en versions châssis, conteneur, ...

Research director Dorothea Baumann-Pauly published a white paper in collaboration with the Geneva

Center for Business and Human Rights which assesses ASM formalization projects. Her work highlights that the extraction ...
