

Bechtel energy inc Zambia

Why did Bechtel launch a project to boost food production in Zambia?

Responding to the post-harvest loss and rising food insecurity in the wake of Russia's invasion of Ukraine, bechtel.org announced a project to boost the local production of maize, soybean, sunflower, and groundnuts, which create essential cooking oils in Zambia.

What does Bechtel do?

This critical work involves proactively identifying issues, designing solutions, and deploying the know-how to engineer and build for the greater good. In India, bechtel.org is helping the Fort Kochi government develop a more resilient and sustainable solution to flood mitigation, pollution, and canal restoration.

What is Bechtel's commitment to sustainability?

Bechtel's commitment to sustainability extends to all areas of our business. We seek to apply our processes, experiences, and innovations to develop and execute projects with care for the environment and for communities.

What is Bechtel's core value?

right thing. As a core value at Bechtel, we are committed to creating a positive legacy through purposeful and sustainable projects. We place immense value on the growth and development opportunities bechtel.org affords our people. This allows us to continually learn and innovate, and it helps us attract, develop, and retain talent.
