Does APR Energy have a 50MW power plant in Benin?

With the 50MW in Benin, APR Energy will have installed more than 1,000MW of generating capacity in 11 African countries since 2008. "As a partner in the U.S. government's Power Africa initiative, we are proud to be playing a significant role in bringing electricity to the people and businesses of Sub-Saharan Africa," Campion said.

Who is Advanced Power Solutions?

Advanced Power Solutions (APS) is a leading producer of premium quality batteries, with production site located in Poland: Gniezno. Our mission is to provide easy, safe, and sustainable mobile energy solutions. We aim to create a powerhouse of brands that improve consumers' daily lives, all while ensuring environmentally responsible production.

How did the World Bank help the Benin power system?

The World Bank financing helped establish N-1 security in the Benin power system, a technical but critical component to power grid resiliency and efficiency. Over 1,500 farmers received training on improved carbonization and logging in the area under the forest management plan.

How did the Sociéte Béninoise d'Énergie Électrique project benefit people?

The project benefitted thousands of people, including those living in localities where the Société Béninoise d'Énergie Électrique networks have been strengthened and rehabilitated. Société Béninoise d'Énergie Électrique subscribers also benefitted from prepayment meters and low-cost compact fluorescent light bulbs.

Why did IAME support Benin's growth strategy for poverty reduction?

IAME supported Benin's Growth Strategy for Poverty Reduction (2007-2009), which indicated reliable power supply--especially covering rural areas and northern regions of the country--as a key focus area. The project aimed to improve lighting and appliance efficiency in urban areas for households that already had access to electricity.

Who makes Advanced Power Solutions batteries?

The Advanced Power Solutions plant in Gniezno is well known for its production of Zinc Carbon and Alkaline batteries. The Gniezno plant has a rich history dating back to 1993. Our plant in Poland takes care of the production, development and packaging of Zinc Carbon and Alkaline batteries.
