The majority of Benin's population has no access to power, while challenges to maintaining the current grid make expansion difficult. Launched in 2017, the Off-Grid Clean Energy Facility (OCEF) increased access to electricity by removing upfront costs and barriers to investment in the off-grid electricity sector. The project concluded successfully at the end of 2023.

To date, 5 concession agreements have been signed giving operators the green light to bring off-grid electrification to 83 villages in Benin not currently served by SBEE, the country's national electricity service provider.
