

What type of energy is used in Bhutan?

Renewable energy here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings. Bhutan: How much of the country's energy comes from nuclear power?

How much power does Bhutan have?

Bhutan's installed power generation capacity is approximately 1.6 gigawatts (GW). Over 99 percent of the country's installed capacity comes from hydropower plants, accounting for 1,614 megawatts (MW) of the country's total capacity of 1,623 MW in 2018. More than 99.97 percent of households have access to electricity.

Why is energy consumption a priority in Bhutan?

Optimizing energy consumption and promoting competitiveness in the Sector should be a priority for the government and businesses alike. Electricity is the primary fuel input in Bhutan's Industry Sector, with the ferro-alloys, steel, and cement-based industries as the major consumers.

What is the potential of wind power in Bhutan?

Wind Energy Bhutan has substantial capacity for leveraging wind power systems. The restricted theoretical development potential for wind power in the country is estimated to be approximately 761 MW, with Wangdue Phodrang exhibiting the highest potential at 141.7 MW, followed by Chhukha at 91.8 MW (DRE, 2015).

What is the energy consumption pattern in Bhutan?

Indeed, the current energy consumption pattern in Bhutan highlights a significant share of electricity in the fuel mix as the primary energy source, indicating a shift from traditional fossil fuels such as coal, diesel, and biomass.

How does the Department of Energy (DOE) work in Bhutan?

The DoE plays a pivotal role in shaping Bhutan's energy landscape and driving sustainable growth in the sector. The Department is structured into four constituent divisions: the Energy Strategy & Planning Division, Energy Resource Development Division, Power Systems & Market Division, and Energy Innovation & Management Division.
