OverviewGovernment agencies and operationsProduction and consumptionHistorySee alsoFurther readingExternal linksEnergy in Bhutan has been a primary focus of development in the kingdom under its Five-Year Plans. In cooperation with India, Bhutan has undertaken several hydroelectric projects whose output is traded between the countries. Though Bhutan's many hydroelectric plants provide energy far in excess of its needs in the summer, dry winters and increased fuel demand makes the king...

In the early 21st century, about 70 percent of all energy consumption in Bhutan was in the household sector. [5] Heating and cooking with firewood in particular accounted for between 70 and 90 percent of total energy consumption and virtually 100 percent of household energy consumption. [23] In contrast, commercial activities in Bhutan were fueled mostly by ...
