After 6 months of screening and proposal preparation, the inaugural run of Japan Energy Challenge took place on 4-6 July in London. Highlighted by dozens of meetings between the executives of Japan's largest and most innovative energy sector companies and Europe's best startups, all participants left with a greater understanding of their respective markets and ...

Abstract Since climate change was recognised as a global concern, there has been a growing number of climate-related cases around the world. While the development of climate litigation in Japan is often overlooked in the academic literature, Japanese citizens in fact have instituted four lawsuits that all aim to stop the construction and operation of coal-fired ...

Lots going on at Brill Power this autumn with a busy period of intense testing in our UK lab in Oxford and the FCC approval of our BMS+ Power Converter. Volume shipment has also started with hundreds of BESA BP6X1 units being dispatched to reach their final destinations in our partners' BESS in Europe, Australia and the US.

Summary This article probes Japan's space diplomacy in a world returned to great power competition. Today, Japan's space diplomacy manifests in a wide variety of contexts at the global, regional and bilateral levels. The principal argument is that the Japanese state is responding to gathering external threats through diplomacy that communicates, persuades ...
