

Where can I find a travel guide for British Indian Ocean territory?

Wikivoyage has a travel guide for British Indian Ocean Territory. Christian Nauvel, "A Return from Exile in Sight? The Chagossians and their Struggle" (2006) 5 Northwestern Journal of International Human Rights 96-126 Archived 2 March 2011 at the Wayback Machine (retrieved 9 May 2011).

Why did a leading energy company decline a move into offshore solar?

A leading energy company recently declined a move into offshore solar because of the saltwater consideration, which massively affects the durability of the system. PV modules, the key component in solar systems, are not designed for salty environments. Even when PV modules are located onshore but near to the sea, corrosiveness can be a problem.

How many islands are in the British Indian Ocean territory?

Map of the British Indian Ocean Territory since 1976. The territory is an archipelago of 58 islands covering 56 square kilometres (22 sq mi). The largest island is Diego Garcia, which at 32.5 square kilometres (12.5 sq mi) accounts for about half of the territory's total land area.

Are offshore areas a viable option for large-scale renewables?

It goes without saying that offshore areas provide vast expanses of space, a major consideration when it comes to the development of large-scale renewables. Onshore, these projects would be competing for land use with other activities, such as agriculture or urban development. Out at sea though, they are largely out of sight and out of mind.

Where was the British Indian Ocean territory before the Seychelles independence?

The British Indian Ocean Territory prior to the Seychelles's independence in 1976. The land at bottom left is the northern tip of Madagascar. (Desroches is not labelled, but is a part of the Amirante Islands.) Map of the British Indian Ocean Territory since 1976.

Can solar projects be built offshore?

Onshore, these projects would be competing for land use with other activities, such as agriculture or urban development. Out at sea though, they are largely out of sight and out of mind. Solar developers are increasingly coming around to the exciting potential of stationing hundreds of photovoltaic systems offshore.

British Indian Ocean Territory is centrally placed in the Indian Ocean, south of the Island of Maldives, about halfway between Indonesia and Madagascar. The central island, Diego Garcia, is a military facility off-limits to anyone not on an official visit. Still, some of the uninhabited outer islands can be visited by yachters with permission.
