

Broadwind inc Norway

Broadwind was one of the first producers of 100-meter wind turbine towers in the United States. We've built more than a dozen designs for the world's largest wind energy OEMs, designed proprietary internals, and custom engineered the high-precision industrial gearing that keeps them operating at peak performance.

Broadwind, Inc. manufactures and sells structures, equipment, and components for clean tech and other specialized applications primarily in the United States. It operates through three segments: Heavy Fabrications, Gearing, and Industrial Solutions.

Broadwind Industrial Solutions. Broadwind Industrial Solutions simplifies complex installations for major OEMs, primarily in power generation, oil and gas, and solar energy. We source, manage and package everything customers need for successful installation--with a complete solution that reduces cost and improves efficiency.
