Background PV/diesel microgrids are getting more popular in rural areas of sub-Saharan Africa, where the national grid is often unavailable. Most of the time, for economic purposes, these hybrid PV/diesel power plants in rural areas do not include any storage system. This is the case in the Bilgo village in Burkina Faso, where a PV/diesel microgrid without any ...

The aim is to increase access to clean energy by improving the financial viability of, and promoting large-scale commercial investment in, solar photovoltaic minigrids in Burkina Faso.

Burkina Faso's transitional parliament has approved a EUR45.7 million loan from the Export-Import Bank of China for the construction of the 25MW Donsin solar PV/battery hybrid power plant. The concessional loan agreement was signed in September 2023 between the government of Burkina Faso and the Export-Import Bank of China.
