Why is Burundi launching a solar PV plant?

The pioneering 7.5 MW solar PV plant has increased Burundi's generation capacity by over 10%, and is the country's first substantial energy generation project to go online in over three decades, supplying clean power to tens of thousands of homes and businesses - just before the start of COP26. ( Video)

Does Burundi have solar power?

Burundi has natural conditions favourable to the sustainable use of water and solar energy or wind power. The solar potential of Burundi is very interesting. The average annual power received is around 2000 kWh / m<sup>2</sup>; per year, equivalent to the best European regions (southern Mediterranean).

Will Burundi's first grid-connected solar farm light up the country's energy system?

UK Minister for Energy,Clean Growth and Climate Change,Greg Hands,said: "Today's launch of Burundi's first grid-connected solar farm will light up the nation's energy system. It will strengthen the national grid supply and propel forward a promising future for the country in clean,green energy.

Will Burundi bring solar power to COP26 Gitega?

7.5 MW utility-scale power plant increases East African country's generation capacity by more than 10% on the eve of COP26 Gitega,Burundi - 25 October 2021: A multinational effort to bring solar power to Burundi has been realized with the commercial operation of the country's first-ever solar field.

Who is distributing hand-held solar chargers in Burundi?

Remarks by Michael Fichtenberg,MD of Gigawatt Global Burundi SA at a ceremony distributing hand-held solar chargers to community leaders at a football match in the early stages of the project,featuring Patrick Nzitunga,Assistant MD,and the Honorable Jean Jacques NYENIMIGABO,MP of Mubuga zone: .

What is GigaWatt Global Burundi?

Michael Fichtenberg, Managing Director of Gigawatt Global Burundi SA and the lead project director, said: "Bringing clean energy to one of the world's least developed countries fulfils Gigawatt Global's mission to be a premier impact platform of choice for renewables in Africa.

The 7.5 megawatt solar farm increases Burundi's generating capacity by 10%, representing the first substantial energy generation project in the country in more than 30 years. Financing for the project was provided by ...

Burundi's rural areas are the backbone of its economy, yet many communities still lack access to affordable, reliable electricity. Our 200 Community Power Hubs will deliver decentralized, solar-powered energy to these underserved regions, providing much-needed electricity to households, schools, healthcare facilities, and small businesses.
