

Cambodia evergreen solar power

Will Cambodia invest 210 billion in solar energy by 2043?

Phnom Penh, Cambodia - The Cambodian government has announced a historic investment plan in solar energy projects worth over 210 billion baht by 2043. This is part of its Power Development Masterplan (PDP) to transition the country towards clean energy and reduce carbon dioxide emissions.

How many energy projects are coming to Cambodia?

The Cambodian Cabinet approved four energy projects this past April, a US\$231 million hydroelectric power and three solar power projects with a combined, rated, maximum power capacity of 140 MW. The latter are expected to come online and dispatch power to the national grid by 2020 and 2021 in four different provinces.

Is solar energy a good source of energy in Cambodia?

Solar energy in Cambodia is the country's second most promising clean energy source behind hydropower. Hydropower remains Cambodia's most developed renewable energy source but also has its own challenges - such as yearly variability due to droughts and floods.

Can solar power help Cambodia achieve national electrification goals?

Searching for alternative options, Cambodia joins a growing list of national governments who have come around to seeing solar and other distributed, emissions-free renewable energy resources as a cost-effective means of achieving national electrification, as well as national and international climate change and renewable energy goals.

How much does solar energy cost in Cambodia?

One of the promising traits of solar energy in Cambodia is its cost. The average electricity price for solar power is around USD 0.03 per kW, significantly lower than that of coal, which is USD 7.7 per kW.

How many solar power plants are there in Cambodia?

Just two solar power plants are up and running in Cambodia at present, one a 10-MW plant developed by Singapore's Sunseap and another, 60-MW facility in Kampong Speu. Cambodia consumed a total of 2,650 megawatts of electricity in 2018, an increase of about 15% compared to 2017, according to the Ministry of Mines and Energy.

Their project will result in the construction of Cambodia's largest solar power plant, according to Ong Jia Jing, Hong Lai Huat Group's general manager and executive director. Aoral Eco-City is a "mega integrated ...
