

How will Mogobe Bess impact South Africa?

Terje Pilskog, CEO of Scatec, expressed his optimism for the project's impact: "This is a significant milestone not just for Scatec but also for the energy transition in South Africa. "Mogobe BESS will set a new standard as one of the first and largest standalone dispatchable battery storage systems in Africa.

What is Mogobe Bess?

Among the recipients, five projects -- including Mogobe BESS -- received contracts to support this initiative. The programme underscores the critical role of dispatchable energy solutions, such as battery systems, which facilitate balancing of energy supply and demand and are integral for embedding more renewables into the national grid.

Why is the Mogobe Bess project important?

Roar Haugland, Scatec's EVP for Sub-Saharan Africa, commented on the importance of this procurement-driven project: "The Mogobe BESS will support grid infrastructure and unlock capacity for South Africa's energy system. "By doing so, we enable not only greater electricity access but also pave the way for future renewable energy connections."

What is Scatec's Mogobe Bess project?

"This marks a new milestone for Scatec in South Africa and for the renewable energy transition in the country. The Mogobe BESS project is a first of a kind and reaffirms our standing as a leading renewable energy player in South Africa.

Is JinkoSolar Asa preparing for a 'Bess' project in South Africa?

Image for illustration purposes only. Image credit: JinkoSolar Scatec ASA, a leading renewable energy provider, has reached financial close for the Mogobe battery energy storage system ("BESS") facility in South Africa totaling 103 MW / 412 MWh and is now making final preparations to start construction of the project.

Where is Bess located in Africa?

Replicating successes from our hybrid solar and battery storage projects at Kenhardt, we will proceed to construct one of Africa's first and largest standalone dispatchable BESS systems. The project is located near Kathu, Northern Cape, close to high power demand centres.

October 25, 2024: Renewables developer Scatec said on October 18 it had reached financial close for its \$170 million 103MW 412MWh Mogobe BESS in South Africa. The Northern Cape project was awarded a 15-year power purchase agreement in the first bid outing under the country's battery energy storage independent power producer procurement programme.

Norwegian renewable energy provider Scatec ASA has reached financial close for the R3 billion 103 MW

Cambodia mogobe bess

Mogobe battery energy storage system (BESS) to be built in the Northern Cape. The project was awarded a 15-year power purchase agreement (PPA) under the first window of the Battery Energy Storage Independent Power Producer Procurement ...

Oslo, 18 October 2024: Scatec ASA, a leading renewable energy provider, has reached financial close for the Mogobe battery energy storage system ("BESS") facility totaling 103 MW / 412 MWh and ...

Renewable energy provider Scatec has reached financial close for the 103MW / 412MWh Mogobe battery energy storage system (BESS) project in South Africa and is now making "final preparations" to start construction of the project, the company said. Mogobe BESS - located in Kathu, Northern Cape - was awarded a 15-year power purchase ...

Three of the projects are in the Northern Cape - Oasis Aggeneis in Aggeneis; Mogobe BESS at Ferrum; and Oasis Nieuwehoop at Nieuwehoop. The fourth is Oasis Mookodi at Mookodi in the North West province, while the fifth preferred bidder - for Garona substation in the Northern Cape - is set to be announced at a later stage.

Construction works on the Mogobe battery energy storage system (BESS) facility project in South Africa is set to begin. This follows a financial close reached by Scatec ASA. The facility, developed under the first window of South Africa's Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP), will play a crucial role in ...

The Mogobe BESS project is a first of a kind and reaffirms our standing as a leading renewable energy player in South Africa. We continue to see attractive growth opportunities in the market based ...

Norway-based IPP Scatec has won preferred bidder status for a 103MW/412MWh battery energy storage system (BESS) project in South Africa, part of a 513MW tender. The firm has won the award for the Mogobe BESS, ...

The Mogobe BESS facility has received a 15-year power purchase agreement under South Africa's Battery Energy Storage Independent Power Producer Procurement Programme. The agreement ensures that ...

The Mogobe BESS project is a first of a kind and reaffirms our standing as a leading renewable energy player in South Africa. We continue to see attractive growth opportunities in the market based on the need for growth in power generation, our strong position in the country and our strong and competent local team," says Scatec CEO Terje ...

The projects, named Mogobe BESS and Oasis Mookodi, have a combined capacity of 180 MW/720MWh, and will be connected to transmission substations located near to Kathu in Northern Cape and Vryburg ...

The country's electricity minister Dr David Kgosisentsho Ramokgopa signed the agreements this week for the

Mogobe and Oasis Mookodi battery energy storage system (BESS) projects. Contractors can now be appointed, with construction expected to start next month and completion 24 months after that, a minister said.

The Mogobe BESS project and the 77 MW/308 MWh Oasis Mookodi project, being developed by an EDF-led consortium, were the first two of five stand-alone battery storage projects named as preferred ...

The company is preparing to begin the construction of the project, Africa's first and largest standalone dispatchable BESS system, near Kathu in the Northern Cape. Scatec will hold a 51% equity share in the project, with Perpetua Mogobe (RF) owning 46.5%, and a holding company of the Mogobe Local Community Trust having the remaining 2.5%.

Scatec is set to begin construction on the Mogobe battery energy storage system (BESS) facility near Kathu in the Northern Cape. The project, awarded under the first bid window of the Battery ...

"The Mogobe BESS facility represents a significant step forward in South Africa's energy transition, and we're proud to be a part of this groundbreaking project," explained Rentia van Tonder, head ...

With Mogobe BESS breaking new ground as one of the largest standalone battery storage systems in Africa, Scatec is set to play a pivotal role in South Africa's energy procurement landscape. By contributing to the stabilisation of the national grid and facilitating more renewable energy connections, projects like Mogobe are crucial to ...

In less than a year after being awarded under the DMRE's Energy Storage Independent Power Producers Procurement Programme (ESIPPPP), the Oasis 1: Mookodi battery energy storage systems (BESS) project reached commercial close on 16 October 2024, with the signing of project documents in Cape Town, in the presence of the Minister of ...

Oslo, 18 October 2024: Scatec ASA, a leading renewable energy provider, has reached financial close for the Mogobe battery energy storage system ("BESS") facility totaling 103 MW / 412 ...
