

What currency does the Central African Republic use?

The currency of the Central African Republic is the CFA franc, which is accepted across the former countries of French West Africa and trades at a fixed rate to the euro.

How does politics work in Central African Republic?

Politics in the Central African Republic formally take place in a framework of a presidential republic. In this system, the President is the head of state, with a Prime Minister as head of government. Executive power is exercised by the government. Legislative power is vested in both the government and parliament.

When did the Central African Republic become a democracy?

After gaining independence from France in 1960, the Central African Republic was ruled by a series of autocratic leaders, including an abortive attempt at a monarchy under the regime of Jean-Bedel Bokassa. By the 1990s, calls for democracy led to the first multi-party democratic elections in 1993.

Is Central African Republic a member of the United Nations?

The Central African Republic is a member of the United Nations, the African Union, the Economic Community of Central African States, the Organisation internationale de la Francophonie and the Non-Aligned Movement.

How many prefectures are there in Central African Republic?

The Central African Republic is divided into 20 administrative prefectures (préfectures), two of which are economic prefectures (préfectures économiques); the prefectures are further divided into 84 sub-prefectures (sous-préfectures).

Why is the Central African Republic a good place to live?

The Central African Republic has great agricultural potential as well as plentiful mineral resources, including diamonds. Reporters and media organisations are caught between armed groups and the authorities. Persistent conflict has hampered media development. Officials and armed groups have targeted journalists and media outlets.

The prevalence of hepatitis B virus markers in a cohort of students in Bangui, Central African Republic BMC Infect Dis. 2010 Jul 29;10:226. doi: 10.1186/1471-2334-10-226. Less than 3% of the population has access to electricity in Central African Republic. Grid-based electricity supply is insufficient to meet electricity demand: it is unavailable 28% of the year on average, mainly due to generation outages.

A solar PV and battery energy storage plant has been commissioned at Danzi, 18km north-west of the capital Bangui, according to the World Bank Group. The plant is a significant addition to CAR's under-developed grid, which had a total of 49.65MW online prior to Danzi's commissioning, according to African Energy Live Data. During the Danzi ...

Breast cancer is recognised as a major public health problem in developing countries; however, there is very limited evidence about its epidemiology in the Central African Republic. The aim of this study was to investigate the epidemiological and histopathological characteristics of breast cancer in Bangui. This is a retrospective study based on the data ...

Implementation of malaria control strategies may face major social and cultural challenges. Hence, understanding local knowledge about malaria helps in designing sustainable community-based malaria control programmes. We designed a pilot survey in communities in the Central African Republic to evaluate recognition of malaria symptoms, perceptions of the ...

A French cuisine boulangerie in Bangui. Bangui is the capital of the Central African Republic, and the staple diet of the people there includes cassava, rice, squash, pumpkins and plantains (served with a sauce) and grilled meat. Okra or gombo is a popular vegetable. Peanuts and peanut butter are widely used. Game is popular, as are the fish-based dishes such as maboké. [8]

Infection by hepatitis E virus (HEV) can cause a high burden of morbidity and mortality in countries with poor access to clean water and sanitation. Our study aimed to investigate the situation of HEV infections in the Central African Republic (CAR). A retrospective analysis of the blood samples and notification forms collected through the national yellow fever ...

The national malaria control policy in the Central African Republic (CAR) promotes basic, clinical, and operational research on malaria in collaboration with national and international research institutions. Preparatory work for the elaboration of National Strategic Plans for the implementation of the national malaria control policy includes developing the research ...

Background Despite huge efforts to promote widespread vaccination, measles remains an important cause of morbidity and mortality worldwide, especially in African children. In March 2011, an abnormally high number of cases were reported from the Ouham Prefecture, Central African Republic to the national measles case-based surveillance system. In response, ...

Background The tuberculin skin test (TST) is the recommended method for screening for Mycobacterium tuberculosis infection in many countries. We used this technique to assess bacillus Calmette-Guérin (BCG) status and to estimate the current prevalence and annual rate of latent tuberculosis infection in schoolchildren in the Central African Republic. **Methods** ...

Hepatitis B is a major health concern in Africa. The vaccine against hepatitis B virus (HBV) was introduced into the Expanded Programme on Immunization (EPI) of Cameroon and Senegal in 2005, and of CAR (Central African Republic) in 2008. A cross-sectional study was conducted to assess HBV immunization coverage following the vaccine's introduction into the ...

Central African Republic: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen ...

Background During the last century we have seen wide-reaching changes in diet, nutritional status and life expectancy. The change in diet and physical activity patterns has become known as the nutrition transition. At any given time, a country or region within a country may be at different stages within this transition. This paper examines a range of nutrition ...

5 ??? In 2024, the humanitarian community in CAR plans to assist 1.9 million most vulnerable people. US\$ 367.7 million is required. -- Humanitarian actors provided life-saving assistance to 2 million people in 2023. -- Increasingly worrying humanitarian situation in the Haut-Mbomou Prefecture -- Faced with insecurity in their villages, Chadians seek refuge in northwest Central ...

BMC cancer, 2018. Breast cancer (BC) is the most common cancer in women worldwide and leading cause of cancer deaths in developing countries. There is very limited data on BC in the Central African Republic.

Construction will begin this month at the 25MWp Bangui solar PV plant, which includes a 25MWh battery system, in the Central African Republic, World Bank Group (WBG) spokesman Boris Ngouagouni told

African Energy Live Data. The plant will be built by China's Shanxi Construction Investment Group Co Ltd, which signed an engineering, procurement and ...
