How much electricity does Chad use?

Per capita electricity consumption is one of lowest in the world and tariffs are among the highest. According to the CIA World Factbook, Chad possessed only 48,000 kW of installed electricity generation capacity as of 2016.

How does the bank support access to energy in Chad?

"The Bank's support strategy for access to energy in Chad is based on a two-pronged approach: off-grid electrification led by the private sector to rapidly boost access and national grid-based electrification by SNE, which is strategically important," said Clara de Sousa, Country Director for Burkina Faso, Chad, Mali, and Niger.

What is Chad's electricity access rate?

Despite significant fossil fuel resources and abundant sunshine, Chad has one of the lowest electricity access rates in the world at 6.4%, compared to the average of 48% in Sub-Saharan Africa. In July 2020, the government implemented a National Emergency Electricity Plan (NEEP) with a view to achieving a 53% access rate by 2030.

Is biomass a source of electricity in Chad?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Chad: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Will Ida help Chad expand its access to energy?

WASHINGTON, March 24, 2022 - The World Bank today approved a \$295 million grant from the International Development Association (IDA)\* to help Chad expand its access to energy.

Why is Chad a good place to invest in solar power?

Chad's location in the Sahel, which features brilliant sunshine especially during the dry season, and lack of alternate fuel sources such as coal make solar power an attractive export and investment sector. Chad currently generates electricity by consuming oil.

Chad Gallinat is the former co-coordinator of the Clean Energy Ministerial's Global Lighting Challenge and Super-efficient Equipment and Appliance Deployment (SEAD) Initiative.
