Solar and battery storage for Christmas Island National Park. Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park.

We would expect a 6kW solar system in Christmas Island to produce 26.40kWhs of solar energy over the course of a year. How much this is actually worth depends on how much you pay for power and how much solar power you send to the grid. A 6kW solar power system is shown here - commonly 17 x 370W panels are used to get to 6.3kW.

All products installed by Island Solar are Clean Energy Council (CEC) certified. The CEC is Australia's peak body for solar energy, working with consumers, renewable energy and energy storage companies, and rooftop solar installers ...
