Are energy prices a social concern in Kazakhstan?

The report recognises that energy prices are a significant social concern in Kazakhstan. A rise in prices for liquified gas used in vehicles contributed to the unrest that gripped the country in January 2022. However, low prices have made it difficult to diversify the types of energy used for the domestic market and to promote energy efficiency.

Why is Kazakhstan the largest oil producer in Central Asia?

Kazakhstan has successfully attracted major international investors to its oil and gas sector and is currently the largest oil producer in Central Asia. Around 80% of Kazakhstan's oil is exported, with almost all of it passing through Russia via pipeline.
