We also have a network of trusted business partners and representatives around the world. Central Energy is an Energy and Commodity Trading company with headquarters in Zug, Switzerland. The company has been incorporated in 1997 and is active in trading energy products, soft commodities and renewables.

What is Colombia's energy policy?

Since August 2022, Colombia's energy policy under President Gustavo Petro has called for increased development of renewable energy sources and reduced economic dependence on fossil fuels. The MME (Ministerio de Minas y Energía), formed in 1974, oversees Colombia's mining industry, mineral industry, and electricity sector.

Why does Colombia have a poor energy sector?

Lack of accountability in the Colombian energy sector allows for problematic outcomes. The gaseous nature of coal deposits in Colombia has caused a large number of occupational accidents and deaths. Poor ventilation, poor worker training, and inadequate regulation are all factors in methane-related accidents.

Is Colombia a good country for hydroelectric power?

With high rainfall rates and a topography favorable for hydroelectric power projects, Colombia has developed hydro as its primary source of electricity, comprising two-thirds of installed capacity and electrical generation in 2020.

Con Colombia como su principal destino de inversión, CTG Latam ha estado operando desde Bogotá; durante más de un año y ha adquirido con éxito 510,4 MW de activos fotovoltaicos greenfield, que en el momento se desarrollan y ...

The terminological shift that "energy opportunity" makes is critically important because the language we use determines how problems are defined, solutions are developed, and decision makers are mobilized to take action. [48] Meanwhile, the shift in perspective that it promotes reveals significant research gaps that need to be filled, including the topic of energy ...

Background: In 2020, Colombia deepened its climate commitments by revising its Nationally Determined Contributions (NDCs) to achieve a 51% reduction in emissions by 2030, a significant increase from the initial 20% target. This ambitious move signals Colombia's commitment to a carbon-neutral future. Central to this effort is the energy sector, led by the Ministry of Energy, [...]
