Instead, they collect solar energy via solar panels and store it in lithium-ion and lead-acid batteries for later use. Because a solar generator operates with a battery instead of fuel, you'll have access to free energy after you install it. With these generators, it's always a good idea to keep a battery backup on hand.

This translates into an additional \$9,274 for the median valued home nationally. The study found that the solar boost was higher in the New York metro area than the national average, topping out at 5.4% - with the NYC solar premium being 1.8% more than it is statewide. That's an extra \$23,989 in value for solar home owners in the five boroughs.
