Polynesian Traditional Twin hull Vaka Polynesians developed the double-hulled canoe (sometimes called a twin-hulled canoe or catamaran) to sail in the rougher waters of the open Pacific. Some of these canoes were very large - one Fijian ndrua measured 36 metres long (Cook's Endeavour was 33 metres). European explorers and missionaries reported ndrua ...

Kia Orana and welcome back to this week's blog. Today I'm going to talk about the beaches in Rarotonga that are less known/visited. Many people often visit Muri beach during their holiday as it's the main "hub" for tourists and many tours/attractions operate out of Muri - especially with the motu's or "islets" being in such close proximity.

Cook Islands Rarotonga Surf Forecast map for predicting the best wave and wind conditions across the region. For surfers, the map shows the most powerful swell tracking across near-shore open water and not the peak waves experienced by boats out at sea.
