

Cost of solar panels for 2 bedroom house Jersey

How much does solar cost in New Jersey?

The average cost to install solar panels is \$13,573 in New Jersey after the federal solar investment tax credit (ITC). Going solar in the Garden State is about 1.5% cheaper than the national average. The out-of-pocket investment might be more affordable compared with other states, though you might pay a higher price per watt.

Are solar panels free in New Jersey?

It is even possible to get your solar panels installed for FREE in New Jersey, with no money down. REMEMBER, these costs can be reduced significantly if you work with a state-licensed specialist to apply for NJ solar incentives and programs that can drastically reduce the costs of solar!

How much does a solar system cost?

This is higher than the average price of residential solar power systems across the United States, which is currently \$3.03 per watt. The size of a solar panel system also plays a role in how much the installation will cost. Larger solar installations typically have a lower cost per watt because the panels can be purchased at a 'bulk price.'

What is the average solar irradiance in South Jersey?

South Jersey has a higher average solar irradiance rating than the northern part of the state, according to the National Solar Radiation Database. Solar panels vary in efficiency, with some panels producing more electricity than others of the same size. The average efficiency is around 15% to 20%.

Is solar energy a good investment for New Jersey homeowners?

Solar energy continues to be one of the best investments for New Jersey homeowners year after year. In fact, many NJ residents and business owners are able to save more than \$30,000 in electricity costs by switching to solar. A high quality solar power system can help you save money on your energy costs for up to 30+ years.

Does New Jersey have a solar tax credit?

The federal ITC is the biggest solar incentive available to New Jersey residents, offering 30% of your system's total cost as a tax credit for the year when you have your panels installed. It's important to realize that this tax credit will only benefit you if you owe taxes since it's a credit and not a rebate.
