About Us. Creative Energy is the only company that focuses on providing solar and energy rehab solutions aimed at manufactured homes. While we do plenty of brick and mortar, residential homes, as well as commercial, our focus since 2016 has been to support manufactured home owners in becoming owners of their own electricity.

So, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product.
