

Could geothermal energy be a source of sustainable power in Croatia?

SARAJEVO, June 6 (Reuters) - Croatia is eyeing geothermal energy as a major source of sustainable power and has just closed an auction for six productive exploration sites to interested bidders, a top energy official said on Tuesday.

How many MWh can a geothermal plant produce in Croatia?

Krpan added that plants should produce around 600,000 megawatt hours (MWh) of electric energy annually, or enough to supply power to about 100,000 households. The European Bank for Reconstruction and Development (EBRD) said it would be interested in exploring financing geothermal projects in Croatia once there are bankable projects in the sector.

Can EBRD finance geothermal projects in Croatia?

The European Bank for Reconstruction and Development (EBRD) said it would be interested in exploring financing geothermal projects in Croatia once there are bankable projects in the sector. "Croatia has significant geothermal potential ...
