Will Eaton buy Cooper Power Systems?

Eaton Corp., the power and control systems giant, announced Monday that it would acquire Cooper Power Systems, a powerhouse in electric grid gear, catapulting the 90-year-old Eaton into a new class of smart grid competition.

Who is Cooper Power capacitor?

reduction, improving power transfer capability and releasing system capacity.Cooper Shanghai Power Capacitor Co.,Ltd has obtained ISO9001:2000 quality management system certificate and enjoyed the isochronous manufacture technics with Eaton's Cooper Power Systems , which has more than

Is Eaton a global power management company?

Founded in 1911,Eaton is a global power management company. Its electrical business is a global leader in power distribution,power quality,control and automation,power monitoring,and energy management products and services.

Does Eaton cooperate with Cooper?

(d) Eaton will cooperate with Cooper in respect of consultation obligations and similar notice and bargaining obligations owed to any employees or consultants of Cooper or any Subsidiary of Cooper in accordance with all applicable Laws and bargaining agreements,if any.

Is this agreement enforceable against Eaton & Cooper?

This Agreement has been duly and validly executed and delivered by Eaton and each Eaton Merger Party and,assuming this Agreement constitutes the valid and binding agreement of Cooper,constitutes the valid and binding agreement of Eaton and each Eaton Merger Party,enforceable against Eaton and each Eaton Merger Party in accordance with its terms.

Who is new Eaton & Cooper?

The Board of Eaton and the Board of Cooper are pleased to announce that they have reached agreement on the terms of a recommended acquisition for cash and shares of the entire issued and to be issued share capital of Cooper by a new holding company, New Eaton, by means of a scheme of arrangement under Section 201 of the Irish Companies Act 1963.

Eaton's Cooper Power series power distribution step-voltage regulator designs provide greater dielectric strength, short circuit strength, higher efficiency and longer life. Eaton invests in innovation to improve power quality for utility customers, increase power delivery ...

Understand the importance of seismic bracing within fire protection systems and learn about Eaton's TOLCO line of UL Listed and FM Approved products for fire sprinkler applications. ...

Eaton leads the industry in the application of single-phase voltage regulators into substations regulating loads up to 60 MVA. With features such as fan cooling and insulating fluid filtration, substation voltage regulators provide a viable option superior to the use of On-Load Tap-Changers (OLTC) with the added flexibility of regulation separate from the power transformer.
