

Dale power solution Mayotte

What services does Dale Power Solutions offer?

We offer a range of services, including support for all your diesel generators, gas turbines and DC UPS systems. Dale Power Solutions supplies secure power solutions to all major UK and international market sectors.

Why should you choose Dale Power Solutions?

As a Dale Power Solutions customer, you will benefit from guaranteed response times and service around-the-clock, around-the-calendar. We are uniquely qualified to maintain power supplies under any conditions, in any environment. We offer a comprehensive range of products and services to provide a total power solution.

What equipment does Dale supply & maintain?

At Dale, we supply and maintain an extensive range of uninterruptible power supplies (UPS), commercial and industrial generators, and energy storage systems. We're busy gearing up for one of our most anticipated events in the exhibition calendar.

Tailored to your needs. With 24V, 48/50V, 110V or 220V DC nominal voltages and 25A to 1250A DC outputs, single or three phase inputs, our range of DC systems can be tailored to suit your needs and are compatible with lead acid, nickel cadmium or lithium ion batteries. Our Industrial DC systems have a wide range of applications that can be found in power generation, substations, ...

We are an Achilles Oil and Gas Europe approved supplier (previously FPAL Verify) and have been providing backup power solutions to the marine, oil and gas sectors for more than 40 years. As well as the Erskine industrial, offshore and marine UPS, our dedicated project management, power management and design teams can help with custom built ...

Our custom-designed Battery Energy Storage Solutions (BESS) are built to the individual requirements of each site. We can build scalable systems from 50kW to multi-megawatt systems either behind or in-front of the meter.

We have designed this to give you an indicative idea of how you can reduce your energy bills with a battery energy storage system from Dale Power Solutions. Try it now +44 (0)330 999 3000 hello@dalepowersolutions

Dale Power Solutions is a leading provider of critical power solutions, dedicated to ensuring the reliability and efficiency of your power systems. A telecoms company reached out to Dale Power Solutions to see if we could help them capture the excess renewable energy they were producing. The need. With 88KW of solar PV on their rooftop, their generation far outweighed their energy consumption. As things were, they sold their excess back to the grid for 5.5p per KWh.

But wear and tear over time is inevitable, so should you find yourself in a situation where you have a failure on your UPS system, Dale is on hand to help get you back up and running. We have a UK stock of new UPS systems that our team can deliver, position and install in no time at all.

What we've been able to achieve working with Dale Power Solutions is effectively a 2MW HV power generation unit in a 24ft container. This container can be installed in modular fashion using 12 tonne lifts which able to use the platform crane to achieve installation. Andrew Ennis, Senior Rotating Equipment Engineer, Shell Global Solutions UK

As well as supporting our customers with sustainable, secure power solutions, we are passionate about our own sustainability and being a responsible business. Help centre. Products. UPS Solutions. Commercial UPS; ... Dale is dedicated to improving our sustainability. Read our Sustainability Policy

With a solid background in engineering and property management, he has risen to be the present Director at Dale Power Solutions. Folorunsho Kolade. Head, Technical. A very experienced electrical engineer certified from University of Ife. He has attended various maintenance related course both in Nigeria and abroad.

Maintain generator performance. Diesel fuel can't be stored indefinitely and needs maintenance or polishing. It can begin to deteriorate within 60-90 days after refinement - leading to contamination such as sludge, algae, diesel bug and large water particles.

Tailored to your needs. With 24V, 48/50V, 110V or 220V DC nominal voltages and 25A to 1250A DC outputs, single or three phase inputs, our range of DC systems can be tailored to suit your needs and are compatible with lead acid, nickel ...

With remote monitoring you can identify power issues early reducing the risk of needing response solutions to downtime, power outages or blackouts. You can access and control vital statistics from your mobile devices,

and make effective decisions quickly about your equipment.

Diesel generators are those that are run on diesel, and can typically be divided into two basic parts: a diesel engine and an electrical generator. Diesel generators can be used to provide power to places that are not powered by a ...

Dale Power Solutions" H& S Management Systems comply with the SSIP (Safety Scheme in Procurement) standard. Read more. SafeContractor. Well-recognised health and safety accreditation that enables organisations to pool together all its health, safety, and ethical policies in one place, ensuring full compliance with SSIP and PAS91.

Dale provides a wide range of commercial uninterruptible power supply (UPS) solutions ensuring your critical power is protected. Our innovative UPS solutions offer reliability, efficiency, and flexibility - using less energy, reducing operating costs and in turn achieving significant total cost of ownership savings.
