

The world's largest CO₂-based seawater heat pump from MAN Energy Solutions has now gone into operation in Denmark. MAN Energy Solutions is building two large heat pump units with a combined heating capacity of 70 MW on behalf of DIN Forsyning in Esbjerg, Denmark. The first of the two large heat pumps has now gone into operation.

The project is focused on a particular corridor from Japan to Denmark that sees a high frequency of full-load containers. Specifically, during the 2nd half of 2023, 50 40-foot containers will be transported using 100% ...
