Does directional swell energy flux depend on the Indian Ocean Dipole?

The directional swell energy flux distribution has a strong dependence with the Indian Ocean Dipole (IOD) and El-Niño Southern Oscillation (ENSO) in the TIO, in particular for the nearshore regions. Interestingly, the positive IOD phase is found to actively influence the D S along the East coast of India.

Can India turn E&P success story into a strategic gas supply stream?

India had hoped that it could turn this exploration and production (E&P) success story into an important strategic gas supply stream for the country by transporting its share of the gas via a 960-mile pipeline from Myanmar to India.
