Many farmers in Uganda want to start a poultry farming business. The first point is to build a chicken coop. And buy suitable battery cage breeding equipment. Only in this way will they develop their own breeding business. You should keep your farm under proper poultry management based on the conditions of your chicken. Read more about About battery cage ...

8000 Birds Chicken Farm Project Description. This project aims to implement battery cage system for 8,000 laying hens in Uganda. The system will be housed in a 7083-meter chicken house, utilizing 66 sets of 120 birds A type laying hen cages.. Background. The increasing demand for eggs in Uganda has presented opportunities for farmers to expand their poultry operations.

This 12,000 layers poultry farm in Uganda has achieved good economic benefits by using A type chicken cages. A-type laying hen cages provide a more comfortable living environment for laying hens, reduce stress, improve the egg production rate of chickens and the quality of eggs, reduce feed waste, reduce labor costs, and increase return on investment.
