

The fund that will speed up the exchange of Cape Verde's debt to Portugal will focus on water, sanitation and energy, and could grow to 140 million euros, said Gilson Pina, National Planning Director of the Cape Verde Ministry of Finance, on 2nd July, on the sidelines of the 1st Energy and Climate Seminar, which took place at the headquarters of the CPLP in Lisbon.

Cabo Verde alberga actualmente o Centro Regional de Energias Renováveis e estamos a criar competências e condições para atrair ... We want to reach 50% penetration of Renewable Energy by 2020. Cape Verde is a rich country in Renewable Energy resources. We have a strong and constant wind on several islands.

Solid waste can also represent an adequate option while ocean and geothermic energy are being tested, with uncertainties remaining as to their efficiency. Cape Verde has an estimated potential of 2,600 MW of renewable energy, and more than 650 MW have been studied in concrete projects, which have lower production costs than fossil fuels.

DSI EV Solutions by ACDI focuses on bringing clean and sustainable energy options to our partners. Through a combination of hardware, software, and maintenance offerings, DSI is a way you can capitalize on the accelerated demand for electric vehicles and the need for a sustainable infrastructure to support that growth.

The ECOWAS Centre for Renewable Energy and Energy Efficiency (ECREEE) has inaugurated a renewable energy project in Ribeira Alta, Cabo Verde, enhancing sustainable electricity access in the remote region. Funded by the ECOWAS Special Intervention Fund, this initiative underscores the commitment to energy equity and development in underserved areas.

Cabo Verde is an archipelago composed of 10 islands that witnessed a consistent increase in both energy access and renewable energy sources in recent years. The most current data presented in the country's Action Agenda states that over 90% of the population has access to electricity, while over 70% of the population had access to clean ...
