

Dynes tower New Caledonia

What makes New Caledonia unique?

New Caledonia has many unique taxa, especially birds and plants. It has the richest diversity in the world per square kilometre. The biodiversity is caused by Grande Terre's central mountain range, which has created a variety of niches, landforms and micro-climates where endemic species thrive.

Where is New Caledonia located?

The northern half of Poya, with the main settlement and most of the population, is part of the North Province, while the southern half of the commune, with only 210 inhabitants in 2019, is part of the South Province. New Caledonia is part of Zealandia, a fragment of the ancient Gondwana super-continent, which is part of Oceania.

What is New Caledonia famous for?

According to FAOSTAT, New Caledonia is a significant producer of: yams (33rd); taro (44th); plantains (50th); coconuts (52nd). The exclusive economic zone of New Caledonia covers 1.4 million square kilometres (0.54 million square miles).

How big is New Caledonia?

The exclusive economic zone of New Caledonia covers 1.4 million square kilometres (0.54 million square miles). The construction sector accounts for roughly 12% of GDP, employing 9.9% of the salaried population in 2010.

What did New Caledonia do for a living?

New Caledonia's primary experience with blackbirding revolved around a trade from the New Hebrides (now Vanuatu) to the Grand Terre for labour in plantation agriculture, mines, as well as guards over convicts and in some public works. In the early years of the trade, coercion was used to lure Melanesian islanders onto ships.

Where is University of New Caledonia based?

It is based in Nouméa and offers a range of vocational, Bachelor, MA, and PhD programs and courses. The University of New Caledonia consists of three academic departments, one institute of technology, one PhD school, and one teachers' college.
