

Elemental energy Australia

Where is elemental energy located?

The project is located on ~1,600 acres of privately owned cultivated farmland near the Hamlet of Blackie, Alberta. This is Elemental's largest project in Alberta and will bring significant investment, jobs, and clean electricity to the nearby communities. Location Alberta, Canada Size 150 MW Timing Start of Construction 2023 Roles Developer Owner

How does elemental energy work?

The system maximises the use of Solar PV and minimises peak load from the grid. Hydrogen is produced by Elemental Energy at an electrolysis site outside the Game Reserve and delivered to the lodge. Elemental energy produces hydrogen by electrolysis outside of the Game Reserve, and delivers to the site in trailer mounted pressurised cylinders.

How did elemental energy refuel a remote re fueling station?

Elemental Energy worked with Air Products South Africa and Sasol to set up and operate a remote refueling station using a large tube trailer, high-pressure booster system and Elemental Energy's mobile storage unit. The entire site was powered by Elemental Energy's H2IPO using hydrogen to generate electrical power.
