

Recovering oils from waste streams can be used as a bi-product or another revenue stream if the oils have value. De-watering the waste stream can also lead to reduced waste hauling charges or even allow them to be land applied. Ellis's performance-proven oil water separators are made with the highest quality at our own manufacturing facilities.

LS Power is a power generation, transmission and investment company. We make the overall power system more productive and efficient through innovative generation and transmission solutions, and our Energy Transition Platforms.
