The Joint Programme will assist the Governments of Barbados and Montserrat in the attainment of sustainable, healthy and prosperous populations and economies as outlined in the National Strategic Plan of Barbados 2005-2025; and the Montserrat Sustainable Development Plan 2008-2020, which is currently being updated and will maintain key focus on population.

Uncover your hidden energy waste. Reduce energy spend. Proactively maintain key equipment. Manufacturing facilities typically waste 21% of the energy they buy. That waste is avoidable, but removing it begins with exposing it. We can help.

The system uses an oxy-fuel torch to cut mild steel bar grating. By slowly feeding a carbon steel solid welding wire into the preheat flame, the torch creates a molten spray that instantly preheats the bars as the cutting oxygen stream approaches. An automatic rotation system turns the lower unit so that the molten spray is always leading the cutting oxygen.
